Aurora Enrollment Overview and Timeline

Overview

Aurora Public Schools (APS) does not have a SchoolChoice application process like Denver Public Schools. Instead, APS has Centralized Admissions and Open Enrollment.

In-District Students

8th graders who currently attend an APS school will be automatically enrolled in their neighborhood high school. Families can use this interactive map to find their neighborhood school.

If the student and his/her family are content with their neighborhood high school option, then all the student/family needs to do is update their registration with Centralized Admissions IF their home address has changed.

If the student would like to attend an APS high school that is not their neighborhood school, he/she must apply for Open Enrollment (intra-district) with the desired school. Students are not guaranteed seats in schools that are not their neighborhood schools. The principal of each school will review all Open Enrollment applications and either approve, deny, or waitlist students by the start of the school year (August).

Out-of-District Students

8th graders who currently attend a non-APS school (DPS, Englewood, etc.) who wish to attend an APS school must first apply for Open Enrollment (inter-district) with their desired school. The principal of that school will review their application and will communicate whether he/she has been approved, denied, or waitlisted by the start of the school year (August).

Out-of-district students who are accepted to an APS school must then register with Centralized Admissions.

Timeline

Late October/Early November 2022 □ Verify your neighborhood high school by using the APS Address Lookup Tool. Use the interactive map to learn more about your neighborhood school and other schools in the area.

Late October/Early November 2022 □ Visit school websites and/or call their main offices to learn about tour, student shadow, and open house opportunities (due to COVID-19, in-person opportunities may not be offered for the 2021-2022 school year).

Late October/Early November 2022 □ Check school websites and/or call their main offices to see if any additional application materials are required.

January 16th, 2023 □ If necessary, apply for Open Enrollment!

May 1st, 2023 □ This is the last day to submit an Open Enrollment application.

Early August 2023 □ If you submitted an Open Enrollment application before May 1st, you will be notified whether your student has been accepted, denied, or waitlisted before the start of the school year.

Cherry Creek Enrollment Overview and Timeline

Overview

Cherry Creek Schools does not have the same SchoolChoice application process as Denver Public Schools. Instead, Cherry Creek has three types of enrollment processes, depending on whether or not you live within the Cherry Creek School District.

The first step for ALL students (in-district and out-of-district) wishing to attend a Cherry Creek high school is to register with the district. To learn more about registration, please visit the District Admissions Office website.

In-District Students

8th grade students who currently attend a Cherry Creek middle school should start by finding their neighborhood high school using the School Locator tool. If the student and family are content with their neighborhood high school, all they need to do is register for that school.

If the student would like to attend another high school within the district, they must first complete a School of Choice application between January 1st and January 31st. If the student does not receive their school of choice, then they may complete an Intradistrict Transfer Request. Staff and space are limited, so acceptance to another district school is not guaranteed.

Out-of-District Students

8th grade students who currently attend a non-Cherry Creek school (like DPS, Englewood, etc.) and would like to attend a Cherry Creek high school should call the District Admissions Office to learn about registration and the New Non-Resident application processes. Families should also contact their school of interest to learn more about the school and its capacity to accept out-of-district students.

The New Non-Resident application is available between April 1st and August 1st every year.
